L'URCHIN: Nous Sommes Famille

Programme

You are very privileged to be witnessing this first ever performance of *L'URCHIN: "Nous Sommes famille"*. This Grande Performance will marry, for you, story and rock together for the first time in a live setting. To achieve this, The Sound of URCHIN has recruited Mr. Black Sebbabbitt (you all know him as the voice between the songs on the first URCHIN cd) to recite the tales of his travels, as read to his confidant "Red", in his search of his missing martini shaker. This story will interwork with the complexities of URCHIN's own musical cinema and provide the "storyboard as glue" to the high-energy extravaganza fans have come to expect from The Sound of URCHIN.
